

Compathos Foundation (501c3) established in 2009, is an arts and media production, education, and research organization harnessing the power of the arts and media to inspire transformation, global citizenry, and social action.

Compathos not only produces award winning film and creative content, but as story advocates, we want others to know about the people, organizations, art and films that inspire us. We curate media rich content that enables our audience to identify entry points for action and we engage our local community through film screenings, workshops and events. Behind the scenes, we support artists and filmmakers not only in their craft, but in their expanding roles as social entrepreneurs. Equally important, we help those involved with positive change extend their reach as engaging storytellers.
